Operations Supervisor

\$500 Signing Bonus

SUMMARY OF POSITION

We are looking for a full time Operations Supervisor in our Durham, NC facility who is dedicated to safety, quality & environmental impacts, self-motivated, and an excellent communicator. Operation Supervisor provides supervision, of all Operation Associates ensuring all operational goals are achieved for output, quality, safety, and housekeeping. Provides communication, direction, corrective action, coaching and training for Operation Associates.

WHAT YOU WILL BE DOING

- Provide direction and ensure that team members are following all processes, procedures, and protocols within specifications
 - Administer disciplinary documentation and procedures as necessary
 - Manage daily inventory including raw materials to ensure adequate supply for production
 - Recognize employees for jobs well done; motivate team
 - Maintain all safety and housekeeping requirements and ISO quality standards
 - Timely report and investigate all accidents and incidents
 - Maintain all employee time tracking including holidays, unpaid time, absences, and paid time off
 - Coordinate the daily activities of the department ensuring maximum efficiency by maximizing utilization of labor, equipment capacity, and materials
 - Ensure team is trained by assessing team members training needs and completing required training in a timely manner
 - Identify and manage department staffing needs including overtime management
 - Provide recommendations for OA performance reviews
 - Review OA performance and pay for performance certifications
 - Assign duties and follow up to ensure completion
 - Facilitate shift/department meetings
- Start up equipment and shut down when a safety concern arises that merits the shut down

Additional Duties:

- Other duties as assigned and special projects as assigned

WHO WE ARE

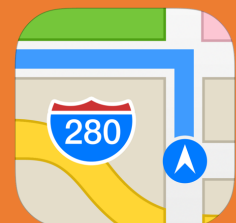

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
