 - Transport samples in and out of the lab
 - Manage sample inventory including warehouse sample management
 - Improve warehouse sample management
 - Accurately and daily track sample information
 - Clean and prepare glassware and testing apparatuses
 - Replenish supplies – including ice, reagents, eluents, and cylinder gases
 - Calibrate testing equipment ensuring accuracy
 - Obtain data from chromatographs and other equipment and record accurately
 - Timely and accurately inspect, clean, identify, and report on condition of incoming samples
- Perform laboratory procedures testing samples as instructed

Additional Duties:

- Other duties as assigned
- Special projects as assigned.

WHO WE ARE

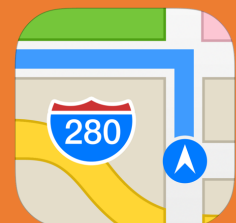

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
