

CORMETECH

Sr. Development Engineer

\$500 Signing Bonus!

SUMMARY OF POSITION

We are currently expanding our team and are looking for a Sr. Development Engineer for our Durham, NC facility. Members of the RD&E Staff at CORMETECH are engineers and scientists with a passion for innovating to meet clients' needs and grow company profitability, and have diverse backgrounds in chemical, materials, and ceramic engineering, as well as chemistry and other scientific disciplines. The Staff's primary mission is to lead the innovation programs required to meet the company's vision of growth and provide solutions for our clients, through pursuit of applied research and development, with a deep understanding of engineering and scientific fundamentals.

WHAT YOU WILL BE DOING

- Contribute significantly to achieving CORMETECH's vision and mission.
- Develop individual objectives with department leadership and stakeholders, in the context of CORMETECH's vision, strategy, and vital initiatives.
- Develop plans to meet objectives, working with department leadership and stakeholders, including measures of success, deliverables, tasks, and timelines.
- Assure that safety and environmental stewardship are key considerations in the execution of the established objectives.
- Execute plans; complete deliverables and meet success measures, in a timely fashion.
- Manage by prevention. Assess risks and develop mitigation strategies to help reduce errors and meet expectations for the deliverables.
- Communicate status of objectives to department leadership and stakeholders, identifying issues as they occur and associated recommendations to resolve them.
- Innovate: continuously improve what we do and how we do it.
- Promote teamwork to best utilize resources and maintain a positive work environment.

WHO WE ARE

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.

CORMETECH

A successful candidate must have:

- Bachelor's degree in chemical engineering or equivalent.
- Three or more years of industry experience, or an advanced degree.
- Strong knowledge in, and experience with applying, principles of thermodynamics, transport phenomena, and process control.
- Practical experience with new process / adsorber / reactor design, build, and commissioning, especially on the lab- or pilot-scale, including:
 - ◊ Setting technical and functional specifications
 - ◊ Specifying equipment, instrumentation, controls (PLC), and automation
 - ◊ Making drawings (PFD, P&ID)
 - ◊ Procurement, vendor management, fabrication supervision
 - ◊ Commissioning and acceptance testing
- SolidWorks or similar CAD software.
- Aspen or similar process modeling software.
- Strong initiative, self-motivated individual.
- Strong safety focus.

THE GOODS

- ✓ Eligible for benefits on DAY ONE
- ✓ Multiple health plan options
- ✓ Vision and dental plans for you & your dependents
- ✓ 401(k) with Company Match
- ✓ Annual Goal Sharing Bonus
- ✓ Lucrative Paid Time Off
- ✓ Education Reimbursement
- ✓ Company paid Life Insurance
- ✓ Internal Promotion Opportunities
- ✓ Employee Assistance Program

Preferred qualifications:

- PhD in Chemical Engineering with focus on catalysis and sorbents.
- Experience with environmental catalysis and a catalyst manufacturer.
