

**CORMETECH**

# Wastewater Operator

## \$2000 Signing Bonus!

### SUMMARY OF POSITION

This position involves chemical addition and pH monitoring in the pre-treatment of internal wastewater, pumping treated wastewater, and operation of the filter press. This position requires a working knowledge of the pre-treatment process and how to perform all QA/QC checks associated with the process and record them. Effective communication between the wastewater operator and the shift supervisor is essential. This position may also involve using overhead cranes to move catalyst modules through the regeneration process while maintaining process specifications and recording process data. Other duties include performing basic calculations related to chemical additions and concentration checks and being able to effectively use the plant visualization software associated with preparing process tanks and operating pumps, valves, etc. as needed.

### WHAT YOU WILL BE DOING

- Follow all safety procedures
- Read and follow treatment process instructions
- Operate plant visualization software associated with production and wastewater
- Chemical addition
- Use proper safety equipment when handling chemicals
- Add correct amounts of chemicals according process instructions
- Utilize hoses and/or buckets to add chemicals to tanks
- Correctly perform strip tests needed to verify water conforms to requirements outlined by the recipe or lead wastewater operator
- Maintain treatment specs
- Make sure pH is within specified range
- Allow proper mixing time
- Record pertinent treatment information in regards to:
  - Treatment sheets, pumping logs and tank status
  - Calibrate pH meter when necessary
  - Pump treated wastewater to the filter press
  - Collect and properly label samples
  - Effluent samples and treated samples (“top samples”)
  - Thoroughly rinse wastewater treatment tanks
  - Collect and empty wastewater totes as appropriate
  - Troubleshoot/correct minor process deviations
  - Alert supervisor of major process deviations and equipment malfunctions
- Empty the filter press
- Transport totes containing chemicals and position dumpster with forklift

### WHO WE ARE

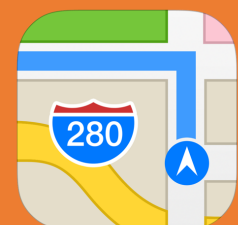

Cormetech is the world’s leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

### BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.

# CORMETECH

## A successful candidate must have:

- Safety and environmentally conscious
- Self-motivated worker
- Able to work in a team
- Able to be punctual
- Able to lift up to 40 lbs.
- Forklift operation
- Able to read, follow instructions, and record information
- Able to reach over and into tanks
- Basic computer skills
- Ability to organize information
- Able to work in all areas associated with regeneration
- Able to work in a team
- Work in an industrial environment
- Work experience with wastewater treatment process
- Chemical handling process
- Proven SDS information

## Preferred Qualifications:

- High School Diploma or equivalent
- Forklift experience
- Overhead Crane Operation

## THE GOODS

- ✓ Eligible for benefits on DAY ONE
- ✓ Multiple health plan options
- ✓ Vision and dental plans for you & your dependents
- ✓ 401(k) with Company Match
- ✓ Annual Goal Sharing Bonus
- ✓ Lucrative Paid Time Off
- ✓ Education Reimbursement
- ✓ Company paid Life Insurance
- ✓ Internal Promotion Opportunities
- ✓ Employee Assistance Program
