

CORMETECH

Maintenance Manager

\$2000 Signing Bonus!

SUMMARY OF POSITION

The Maintenance Manager has specific responsibilities to direct the maintenance programs and processes of all CORMETECH Regeneration Facilities to ensure timely and effective production. Provides leadership, direction, supervision, and guidance for all maintenance activities. Ensures excellent safety performance throughout the maintenance department. Oversees that all health and environmental regulations are maintained during all equipment repairs, property maintenance and equipment installation. Must be flexible and available outside of normal work schedule and on holidays. The Maintenance Manager will be responsible for a team that spans 20 hours of coverage Sunday to Thursday and 12 hours of coverage on Friday, Saturday, and Sunday.

WHAT YOU WILL BE DOING

- Follow and implement all safety procedures, equipment, and performance standards
- Execute, oversee, and direct all facility repairs, equipment repairs and equipment installation
- Oversee all maintenance needs for the main production plant and four external warehouses
- Manage and directs all maintenance personnel including the janitorial staff
- Execute and implement best preventative maintenance practices to ensure the plant operates on schedule
- Present and suggest better equipment, process solutions, and generate cost saving scenarios
- Coordinate and give guidance on maintenance requirements to management
- Manage schedules for people and equipment
- Assemble and submit monthly reporting metrics and information using statistical analysis
- Coordinate and communicate equipment “up-time” issues to production team and management
- Manage, oversee, and coordinate all maintenance related inventory requirements
- Communicate equipment preventative maintenance needs between production plant and dry operations
- Regularly report on equipment issues and downtime
- Prepare reports of experimental equipment and/or pilot units
- Identify discrepancies that occur from projected results and formulate conclusions and recommendations based on data obtained
- Evaluate and assist in the design and implementation of modern

WHO WE ARE

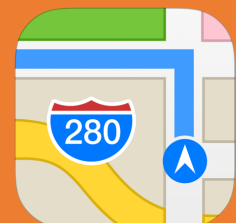

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
