

CORMETECH

Analytical Chemist

\$2000 Signing Bonus!

SUMMARY OF POSITION

The Analytical Chemist will be responsible for the day-to-day operation and management of our Kings Mountain XRF Laboratory. The Analytical Chemist will be solely responsible for sample preparation, sample analysis, and results reporting. Results from this lab are a critical component of our Regeneration operations, and as such the timely and accurate analysis and reporting of results are critical to success in this role.

WHAT YOU WILL BE DOING

- Follow all safety procedures
- Maintain a clean and safe environment within the XRF Laboratory
- Prepare XRF and BET samples for analysis
- Analyze XRF and BET samples
- Report results from XRF and BET analysis in an accurate and timely manner
- Perform regular instrument calibrations and standard checks
- Perform regular instrument maintenance and schedule equipment PM with outside vendors as needed
- Keep and maintain detailed records of all sample analysis,
- instrumentation maintenance, and update XRF Laboratory SOPs as needed

WHO WE ARE

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
